Customized menus for parties are available, supplying planners with any desired dish.

The Art of Teambuilding

Also on the menu are new and innovative end-of-session offerings to accommodate any group's interests. For the perfect conclusion to a full day of meetings, enjoy a hands-on mixology session by our in-house mixologist to learn the fine art of creating craft cocktails with premium ingredients. Or, attendees can head to a local art studio for a session with a talented local artist. Following the session, attendees break into groups to create their own masterpieces. Once completed, the pieces can be displayed and judged by the artist at an event function or even auctioned off to benefit the group's charity of choice. Those wanting to take to the stage can head next door to the Sugden Theater where they will be met by an actor from the Naples City Improv. The group will be divided into teams where they will receive a script and some props. Then, the curtain will rise and each team will perform for the other groups. Additional teambuilding options include a treasure hunt at the Naples Botanical Gardens, where attendees can get their hands dirty planting trees or testing their knowledge in a hunt for rare plants from around the world.

Meeting guests relish the Inn's 119 elegantly appointed guestrooms, with chic furnishings, contemporary design, luxurious bedding and either Juliet balcony or terrace.
